

Traceability Document of Turbidity Calibrator for Urine Analyzer

Traceability Document of Turbidity Calibrator for Urine Analyzer

Product name: H series urine analyzer Calibration liquid for Turbidity

1. Traceability Description:

In accordance with ISO 17511 and NCCLS regulations, the values of Turbidity Calibrator for Urine Analyzer are strictly traceable to a turbidimeter.

2. Value Traceability Procedure:

According to ISO 17511:2003 "In vitro diagnostic medical devices - Measurement of quantities in biological samples - Metrological traceability of values assigned to calibrators and control materials," the values of Turbidity Calibrator for Urine Analyzer are strictly traceable to a turbidimeter.
